

The Czech Transport Federation and Transport & Environment welcome you to the

## **PANEL DISCUSSION**

### **on the revision of the council directive laying down the maximum authorized dimensions and weights for heavy road vehicles**

The proceeding revision of the council directive 96/53/ES can assist in further extending heavy vehicles, so called mega-trucks, that exceed the current maximum authorized dimensions and weights. What experiences regarding mega-trucks have been gained in Czech Republic and what are the opinions of interested parties concerning the future of these vehicles?

**When:** Monday the 27th of February 2012, 10:00 a.m. – 1:00 p.m.

**Where:** Evropský dům, Jungmannova 24, Praha 1
